Procedure

Plan

- Idea
- Our role
- Strategy
- Brand definition & direction
- Execution schedule & timeline
- Your role
- Definition & post evaluation
- Commencement date

Concise

- Government gives money to its citizens individual accounts for farming purposes only; either at home or in any land they can monitor the individual, that the individual won't run away with the farm token. Government assists the farmer monitor the farm.
- When the harvest is ready government buys the produce from the farms directly saving the farmers transportation and easing governments logistics organization. Government sells the products in bulk to the world, making the country the biggest farming and income nation.

Management

- Ministry of Finance
- Ministry of Agriculture
- Ministry of Environment
- Ministry of Justice
- Banks
- Individual (Farmer)
- Economic & Financial Crimes Commission (EFCC)
- Nigerian Investment Promotion Council (NIPC)
- Existence-ok (Monitors Idea Implementation)

Gains

- Federal Government gains free available manpower for mass production.
- Individual gains extra financial empowerment, eradicating poverty.
- Farmers farm domestic economic products and farm new products like medicinal herbs unknown to the world and bush meat so the population of wild game for food would not be exhausted; all products sold by Government via Nigerian Investment Promotion Council (NIPC).

Crops for Cash

- The colonial masters used Africa then for Cash for Crops.
- The procedure should be Crops for Cash.
- Cash for Crops or Cash Crops allowed exportation of unrefined or raw goods.
- Crops for Cash is to reverse the curse for Africa etc. to export refined or finished goods.
- Then it was work for daily wage, now it should be work for profit; entrepreneurship for land property.

Schedule

Periodic

Funding is done once by government.

Production depends on farms periodic season.

Monitors are rotated to avoid corruption, unless otherwise necessary.

Buying depends on farm harvest period.

Bulk sale depends on government, to divert government from over dependence on oil & back to what developed the oil sector before the oil dries out.
