**FCT fest**  
moto: FCT fest (Skills) Origins

Your ref.....Our ref.....

17 July 2023.

Federal Capital Territory Festival is the organization of all artisans from occasions in the origin of the spiritual man that the Homo Sapiens came from, for the world to get the knowledge and skills of the origin of humanity for the sustainability of the human species to see themselves as one, instead of as racists or different tribes. They were many other Homo... species, but the Homo Sapiens now dominate the world and should know why. So, humanity can make money from the know how of the origin of the human being by modernizing the techniques and skills of old.

It is the Spirit that made the human in soul wise that is called human being that became Homo Sapiens that migrated from the land that knows paradise before the fall of Eden that anyone can see Nigerian lands are the places where most tribal leaders know of the time of spirit with everything, in which migration of people forming different languages became a tower of babel sometime after the fall. This is very beneficial to the Occidental who had scoured and scouted the colonized Africa seeking these knowledge. The Oriental can also find out the exact location of the origin of their acupuncture, cupping and Ayuverdic knowledge. The origin of the Hippocratic oath and the medical symbol can be traced to here as well. The whole world has a lot to gain from this festival that the time has come for the world to know the truth; culinary methods of origin will also be displayed with every other origin of things used by humans, most tribes in Nigeria have history of the time people were not dying but they were translating.

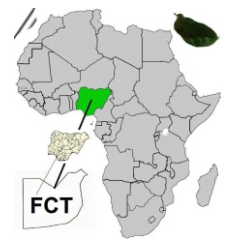

Mankind have been looking for the origin of the human being as spirit, soul and body that made mankind wise. The time has come for the origins of the migration of mankind to reveal all that makes humans. This is the continuation of FESTAC'77 (Festival of Arts & Culture of 1977) to include all of humanity and not only the black race.

**Operational Manual of FCT fest**

FCT festival will bring all the talents of Nigerian *Magicians* and *Gymnasts* together in show-business for all to see the talents and be amused by our talents in this field of entertainment: Nigeria has no circus activity but roadside entertainment of such around markets, parks etc. exists.

**Procedure: -**

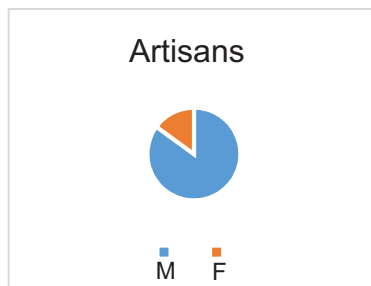

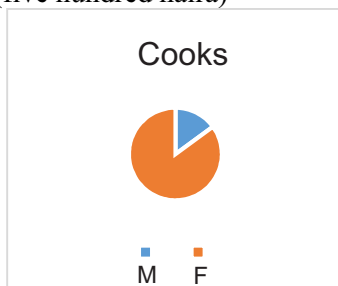

**Organization:** Involvement of the Federal Government and Banks in the festival which will prolongs our culture of artists of this nature, magicians and gymnasts; or the culture will die off when ignored by sustainable cash. The GSM services can support this to use with their jingle and gain financially from this.

In the United Kingdom of Great Britain, the Queen is prolonging the artists by giving them warrantee when she tests them; they design what she wants and if good they get their warrantee with financial support, they are then registered as On Her Majesty Service.

**Advert:** All the national media houses should announce the circus, as well as the GSM services in the country and international media houses.

**Artists:** The Artists will register for a fee individually (by sponsorship or personally) nationwide of ₦500 (five hundred naira)

Key: M=Males; f=females / U=Unemployment; D=Demographics

**Show:** The show will be done in Abuja Stadium; and subsequently all the stadia in the country can get participants for the festival that unite all the carnivals and boat rallies, as a unifying factor of the country. This may be the new unifying tool like football is.

**Comments:** The FCT festival that brings participants from all over will drag in foreign currency and investors.

The award should be called the Presidential award of the Federal Republic Empire of Nigeria, hence we are a nation of many kingdoms, and the largest multiethnic state in the world, the Name would be befitting to our great country in re-branding Nigeria. The British etc. call Nigeria an Empire. We can use this to give us a new image individually and internationally.
